

Why QST

At QST, we believe in earning trust through performance, transparency, and measurable value. Our clients - whether in government, healthcare, or enterprise - choose us because we bring more than just technology. We bring clarity, expertise, and a commitment to outcomes.

What Makes Us Different

- Specialized Focus on IT

We don't try to be everything. We focus on what we do best: IT staffing, consulting, support, infrastructure, and security.

- Flexible Staffing & Project Solutions

From single consultants to full teams, short-term or long-term - we scale to meet your goals, not just your job descriptions.

- Public + Private Sector Experience

We understand the pace, compliance, and procurement needs of government, as well as the agility needed in the commercial space.

- Vetted Talent Only

Our professionals are screened for technical skill, certifications, and communication. If we wouldn't hire them internally, we won't submit them to you.

- Responsiveness That Stands Out

No slow rollouts or red tape. We move fast, stay flexible, and stay in touch.

- Clear Communication & Delivery

You'll always know where things stand - we prioritize project visibility, consistent reporting, and alignment.

Fee & Guarantee Structure

We offer a competitive, tiered pricing model designed to reduce risk and increase peace of mind:

- 10% fee - 30-day guarantee (Replacement only)
- 15% fee - 45-day guarantee (Full refund or free replacement)
- 20% fee - 60-day guarantee (Full refund or free replacement)
- 25% fee - 90-day guarantee (Free replacement only)

We stand by our placements - if something isn't the right fit, we'll make it right.

Let's Talk Results
